YOUR INVESTMENT OPTIONS

Under ABSLI Wealth Aspire Plan, you decide how to invest your premiums in one of the four investment options - Smart Option, Systematic Transfer Option, Return Optimiser Option or the Self-Managed Option. Systematic Transfer Option is for individuals who would like to eliminate the need to time one's investments in the market. Return Optimiser option is for individuals who would like to have optimal participation in the capital markets while safeguarding their returns from any market related volatilities. Self-Managed Option is for individuals who would like to have control over their investment.

At any time after one year while your policy is in effect, you can change your investment option.

Smart Option

Under the Smart Option, your portfolio will be structured as per your maturity date and risk profile. We will invest your basic premiums between the two segregated funds – Maximiser (equity fund) and Income Advantage (debt fund) in a predetermined proportion based on the selected maturity date and risk profile. Thereon, we will manage and administer your investment portfolio on your behalf, thus saving you time and effort. Over time the allocation is managed such that it will automatically switch from riskier assets to safer assets progressively as your plan approaches maturity.

The proportion invested in Maximiser (equity fund) will be according to the schedule given below – the remaining amount will be invested in Income Advantage (debt fund):

Risk Profile	Years to maturity					
	5	6 – 10	11 – 15	16 – 20	21 – 30	31 – 40
Conservative	0%	5%	15%	30%	35%	50%
Moderate	0%	10%	25%	40%	50%	65%
Aggressive	0%	15%	35%	50%	65%	80%

For example – if person A takes policy with policy term 40 years, opts for Smart Option and a moderate risk profile, then based on the maturity date and the risk profile the investment portfolio will change with time as below:

Years to maturity	Risk Profile	
	Aggressive	Moderate
31 – 40	65%	35%
21 – 30	50%	50%
16 – 20	40%	60%
11 – 15	25%	75%
6 – 10	10%	90%
5	0%	100%

You can change your risk profile at any time with no additional cost. All premiums paid from that point onwards will be invested in the Maximiser and Income Advantage according to your new risk profile.

We will automatically rebalance your investment portfolio on each policy anniversary to ensure that it maintains the predetermined proportion in Maximiser and Income Advantage as per the risk profile you have selected at no additional charge.

Systematic Transfer Investment Option:

The Systematic Transfer Option safeguards your wealth against the market volatilities and is available only if you have opted for annual mode. Under the Systematic Transfer Option, at inception you can choose to transfer the fund on monthly basis or weekly basis. Your premium (net of premium allocation charge) shall be first allocated to Liquid Plus fund option and thereafter monthly 1/12th or weekly 1/48th of the allocated amount shall be transferred to a segregated fund(s) of your choice. You may choose up to a maximum of four segregated funds out of Income Advantage, Enhancer, Creator, Maximiser, Multiplier, Super 20, Value & Momentum and MNC, ESG, Small Cap, Capped Nifty Index, Dividend Yield Fund, Nifty Alpha 50 Index Fund and Flexicap Fund for your premiums to be transferred to. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to chosen segregated fund(s) be in increments of 5%, ranging from 5% to 100%.

In case monthly transfer is opted, 1/12th of the allocated amount will be transferred to your chosen segregated fund(s)on 1st, 8th, 15th or 22nd of the month as selected by you. In case weekly transfer is opted, 1/48th of the allocated amount will be transferred to your chosen segregated fund(s) on 1st, 8th, 15th and 22nd of the month.

This option helps mitigate any risk arising from volatility and averages out the risks associated with the equity market, reducing the overall risk to your portfolio.You can switch between monthly and weekly transfer option on policy anniversary.

Example for monthly transfer – if person A aged 35 years, opts for Systematic Transfer Option with transfers on 15th of every month to Super 20:

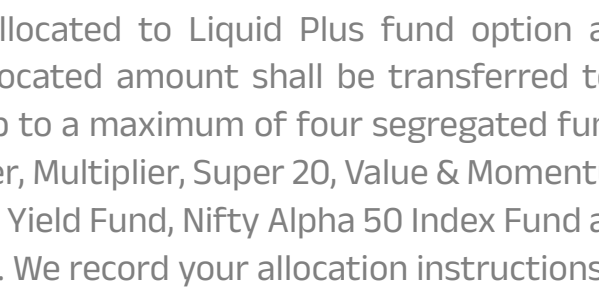

Premium/s net of premium allocation charges will be allocated in Liquid Plus Fund and thereafter on 15th of every month, 1/12th of initially allocated amount shall be automatically transferred to Super 20 Fund.

Example for weekly transfer – if person A aged 35 years, opts for Systematic Transfer Option with weekly transfers to Super 20:

Premium/s net of premium allocation charges will be allocated in Liquid Plus Fund and thereafter on 1st, 8th, 15th and 22ndof every month, 1/14th of initially allocated amount shall be automatically transferred to Super 20 Fund.

Return Optimiser Investment Option:

The Return Optimiser Option enables you to take advantage of the equity market, protect your gains from the future market volatility and create a more stable sequencing of investment returns.

Under this option all your basic premiums (net of allocation charges) are invested in Maximiser fund and it will be tracked every day for each policyholder for a pre-determined upside movement of 10% or more over the net invested amount (net of all charges). In the situation where the gain from the Maximiser fund reaches 10% or more of the net invested amount, the amount equal to the appreciation will be transferred to the Income Advantage fund at the prevailing unit price.

This ensures that your gains are protected from any future market volatilities.
While the gain is less than the pre-determined upside movement of 10%, the Policy fund value will continue to remain in the Maximiser fund and no transfers will be made to the Income Advantage fund.

The Return Optimiser Option can be explained with the help of an example as below:
For Age 30, Male, Classic Option, Basic Premium – ₹100,000, Policy Term – 20 years. At the end of the third policy year,

Total Premiums Paid (invested in Maximiser Fund)	₹3,00,000
Less charges deducted from Maximiser Fund (Premium Allocation Charge, Policy Administration Charge, Mortality Charge)	₹24,492
Net amount lying in the Maximiser Fund	₹2,75,508

Suppose the Policy fund value is now ₹310,000 which is higher than 303,059 (i.e. 110% of the net invested amount of 275,508) then ₹34,492 (i.e. 310,000 – 275,508) will be transferred to Income Advantage Fund.

If the Policy fund value is less than ₹303,059 then there will be no transfer to Income Advantage Fund.

Self-Managed Option:

Self- Managed Option gives you access to our well established suite of 21 segregated funds, complete control in how to invest your premiums and full freedom to switch from one segregated fund to another.

Our 21 segregated funds range from 100% debt to 100% equity to suit your particular needs and risk appetite – Liquid Plus, Income Advantage, Assure, Protector, Builder, Enhancer, Creator, Magnifier, Maximiser, Multiplier, Super 20, Pure Equity, Value & Momentum, Capped Nifty Index, Asset Allocation, MNC, ESG, Small Cap, Dividend Yield Fund, Nifty Alpha 50 Index Fund and Flexicap Fund. If you wish to diversify your risk, you can choose to allocate your premium in varying proportions amongst the 21 segregated funds. We record your allocation instructions as per the premium allocation percentages specified in the application form. Our only requirement is that the percentage allocated to any segregated fund be in increments of 5%, ranging from 5% to 100%.

To meet your ever changing investment needs, you have full flexibility to redirect future premiums by changing your premium allocation percentages at any time. You also have full flexibility to switch monies from one segregated fund to another at any time provided the switched amount is for at least ₹5,000.

You can change from one investment option to another investment option anytime after the first policy year. You can switch to Self-Managed Option, Smart Option or Systematic Transfer Option during the policy term, however switching to the Return Optimiser Option is not allowed.

Units are allocated when we receive a premium, when guaranteed* additions are added to the Policy fund value or when we execute your request to switch units from another segregated fund (as applicable to your policy).

The number of units redeemed equals the monetary amount encashed from a segregated fund divided by its unit price at that time. Units are redeemed when we execute your request for a partial withdrawal or when we execute your request to switch units to another segregated fund (as applicable to your policy).

On each monthly processing date, policy charges will be covered by redeeming units from all segregated funds under your policy in proportion to their value at that time.

Unit Price

On each business day and for each segregated Fund, we determine the unit price by dividing the net asset value (NAV) of the segregated fund at the valuation time by the number of units in existence for the segregated fund in question. We publish the unit price of all segregated funds on our website https://lifeinsurance.adityabirlacapital.com

The net asset value (NAV) is determined based on (the market value of investments held by the fund plus the value of any current assets less the value of any current liabilities & provisions) divided by (the number of units existing at valuation date before creation or redemption of any units)
