xvii) Pre-Policy Medical Check-up

We will require You to undergo a medical check-up based on Your Age, Gender, Optional package and the Sum Insured opted, as per the Underwriting guidelines. Wherever any pre-existing disease or any other adverse medical history is declared, we may ask such member to undergo specific tests, as We may deem fit to evaluate such member, irrespective of Age/ Sum Insured/Gender/Optional Cover or Plan opted. Medical tests will be facilitated by us and conducted at Our network of diagnostic centres. We will contact You and fix up an appointment for the Medical Examination to be conducted at a time convenient to You

Wherever required we may request for additional tests to be conducted based on the declarations on the proposal form and the results of any medical tests that we have received.

Full cost of all such tests will be borne by us for all accepted proposals.

xviii) Migration:

The Insured Person will have the option to migrate the Policy to other health insurance products/plans offered by the company by applying for migration of the policy at least 30 days before the policy renewal date as per IRDAI guidelines on Migration. If such person is presently covered and has been continuously covered without any lapses under any health insurance product/plan offered by the company, the insured person will get the accrued continuity benefits in waiting periods as per IRDAI guidelines on migration.

xix) Moratorium Period:

After completion of 60 continuous months of coverage (including Portability and Migration) in health insurance policy, no Policy and claim shall be contestable by the Insurer on grounds of non-disclosure, misrepresentation, except on grounds of established fraud. This period of 60 continuous months is called as moratorium period. The moratorium would be applicable for the Sums Insured of the first Policy and subsequently completion of 60 continuous months would be applicable from date of enhancement of Sums Insured only on the enhanced limits. The policies would however be subject to all limits, sub limits, co-payments, deductibles as per the policy contract.

xx) Revival of Policy

If your Policy has passed the stipulated grace period due to non-payment of premium, you may be allowed for revival of your policy, subject to certain specific terms and conditions.

Specific conditions applicable to revival of policy

a. The policy could be revived maximum within 180 days from lapse of the first payment due date
b. Revival of policy shall be subject to our discretion and may require the below additional conditions (if deemed necessary by us):
    1. Special conditions,
    2. Assessment of current health status or Good health declaration
    3. Undergoing medical examinations
    4. Payment of all the premium (inclusive of applicable taxes) that was due and unpaid
c. Any claim/medical expense incurred during the lapsed period (time from when the grace period ends till the time payment is made) shall not be paid even after revival of policy i.e. no claim would be admissible for the break-in period in your policy.
d. If a 'Good Health Declaration' is sought by us and is later proven to be fraudulent, the entire policy shall be cancelled, and no claims shall be payable.
e. The Company reserves the right to accept or decline the revival of such lapsed policy and the continuation of coverage and benefits such as waiting period credits, accrued Bonuses and moratorium period protection is purely subject to Insurer's approval by way of issuance of the continued policy. In such an event, the coverage under the policy would re-commence from the date of company's decision of acceptance of revival of policy and subject to payment of all due premiums.

xxi) Coverage Standards & Protocols

Medicine is an evidence-based science. Clinical diagnosis supported by positive investigation test findings are its founding principles. Treatment in Medicine are given as per well-defined protocols.

Our goal is to deliver care that is appropriate, effective, and safe. Equally important is avoiding treatments that are not medically necessary, as this helps safeguard patient well-being. Insurance, by design, is to support healthcare needs and not to change treatment choices. Furthermore, a key principle in insurance suggests that having coverage should not influence healthcare decisions. Patients naturally consider the benefits of treatment along with its cost and choose care that offers the best value and medical results. This approach supports responsible, value-based care that focuses on what is truly needed for recovery and long-term health.

A. Medical Protocols

We are committed towards supporting safe, effective, and evidence-based medical care. To help bring clarity and consistency, we will be referring to trusted and widely accepted sources such as leading medical textbooks, All India Institutes of Medical Sciences

(AIIMS), Indian Council of Medical Research (ICMR), the Clinical Establishments Act 2010, Pradhan Mantri Jan Arogya Yojana (PMJAY), various health schemes like Mukh Mantri Sehat Yojana

(MMSY Punjab), the Department of Health Research (Ministry of Health), and internationally respected institutions like Mayo Clinic, Cleveland Clinic, and
National Institute for Health and Care Excellence **(**NICE).

These guidelines are designed to help explain:

a. When hospitalization is needed, including guidance on the appropriate level of care (for example: admission in an ICU or non-ICU room)

b. What treatments and procedures are considered appropriate, based on the medical condition and its severity, including recommended medicines and procedures

To ensure patient safety and quality of care, coverage under this policy shall be aligned with treatments and medicines that are approved by recognized regulatory authorities such as the Central Drugs Standard Control Organisation (CDSCO), Food and Drug administration (FDA), and other relevant bodies in India. Any treatment, medicine not approved by CDSCO, FDA and other appropriate authorities in India shall not be covered under the policy.

We also follow official guidance provided by manufacturers and regulatory authorities regarding how medicines and procedures should be used, including their approved indications and precautions. Treatments or medications used outside their approved purpose (often called “off-label” or extra usage) shall not be covered under the policy, as these fall outside established approval and safety guidelines.

Our approach is focused on transparency, safety, and supporting care that is medically appropriate and widely accepted, helping customers make informed healthcare decisions with confidence.

B. Position statements

Medicine is constantly evolving, wherein, new technologies and treatment approaches are emerging regularly. While many innovations offer promise, not all deliver outcomes that are meaningfully better when considered alongside their costs and established alternatives.

As a responsible insurer, we believe in being transparent and clear with our customers. Therefore, our decision on the coverage of illnesses or injury shall be basis texts and medical protocols published/recognised by globally trusted establishments like All India Institutes of Medical Sciences (AIIMS), Indian Council of Medical Research (ICMR), the Clinical Establishments Act 2010, Pradhan Mantri Jan Arogya Yojana (PMJAY), various health schemes like Mukh Mantri Sehat Yojana (MMSY Punjab), the Department of Health Research (Ministry of Health), and internationally respected institutions like Mayo Clinic, Cleveland Clinic, and
National Institute for Health and Care Excellence **(**NICE). Our evaluations will be based on comprehensive Health Technology Assessments, health economic evaluations, cost-benefit and cost-efficiency analyses, along with other well-regarded global research published in reputable medical journals. Any research found to have conflicts of interest will be excluded from consideration.

Medical protocols published by these establishments will outline how we assess different medicines, treatments, procedures, investigations, and therapies. Depending on the clinical and scientific evaluation, we may either cover the Reasonable and Customary charge incurred on a treatment wholly or partially or may recommend suitable alternatives or may seek additional review or in some cases may be unable to provide coverage under this product.

Importantly, if our medically-informed assessment results in no coverage or partial coverage for a particular treatment, we will still ensure payment at least up to the cost of the most widely accepted and commonly used alternative treatment currently available for that condition.

C. Prolonged Hospitalization extending beyond 10 days

a. It is important that you inform us in a timely manner. If we do not receive intimation within 10 days from the date of admission, we may apply an additional cumulative co-payment of 10% on the final admissible claim amount.

b. We may request for indoor case papers, treatment sheets, and daily monitoring records to help us understand and support the medical need for the extended stay.

c. If the medical records indicates that the insured's health parameters have stabilized and yet the hospitalization continues, expenses related to the extended period of stay may not be payable under this policy.

D. Organ Transplants

a. For live donor organ transplants, we kindly request that you inform us at least 7 days in advance, even if the hospitalization is planned at a non-network hospital. This allows us to assist you more effectively through the process.

b. In the case of a cadaveric organ transplant, where advance planning may not always be possible, please inform us as early as feasible, and no later than 48 hours from the date and time of admission, even if treatment is at a non-network hospital.

c. For all Kidney, liver and pancreas transplants, a biopsy of the recipient's organ may be required as part of the medical evaluation process.

d. If treatment is taken at a non-network hospital and we do not receive the required intimation or the biopsy report as outlined above, an additional 20% co-payment may be applicable on the admissible claim amount.

xxii) Switching between Plans

There are 2 plans under Lifetime Health product ie India Plan and Global Plan. Policyholders are allowed to switch from one plan to another only at renewals. This shall be subject to Underwriting. If the Policyholder switches from India Plan to Global Plan then all waiting periods shall apply afresh to the enhanced part of the risk ie. Waiting periods shall apply afresh to the Global covers that would come into force.

xxiii) Personal Data and Privacy
